Package: dcmodify (via r-universe)

September 12, 2024

Maintainer Mark van der Loo <mark.vanderloo@gmail.com>

License GPL-3

Title Modify Data Using Externally Defined Modification Rules

LazyData no

Type Package

LazyLoad yes

Description Data cleaning scripts typically contain a lot of 'if this change that' type of statements. Such statements are typically condensed expert knowledge. With this package, such 'data modifying rules' are taken out of the code and become in stead parameters to the work flow. This allows one to maintain, document, and reason about data modification rules as separate entities.

Version 0.9.0

Depends methods
